

ORANGE

Eco-Friendly Cream for Anilox Cleaning

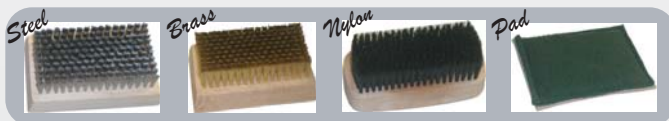

Maximise your anilox roll performance with ReNew™ Orange eco-friendly paste for anilox cleaning. Simply apply with a roll cleaning brush and leave for 10-20 minutes (if your roll is regularly deep cleaned leave for 5-10 minutes) then scrub the surface adding water and finally, rinse clean with water. ReNew™ Orange is compatible with all types of inks and coatings. Safety data sheet available on request.

- > Quick on-press anilox cleaning
- > Compatible with all types of inks and coatings
- > Near neutral pH of 7 (+/-1)
- > Non-toxic, Low VOCs, Biodegradable
- > Water soluble, Non-flammable
- > Pleasant citrus fragrance

Available in 16oz and 1 gallon bottles
